

Overview of Juvenile Justice Community Programs for

Legislative Research Commission Age of Juvenile Offenders Committee

Teresa Price, Director of Community Programs William Lassiter, State Contracts Administrator

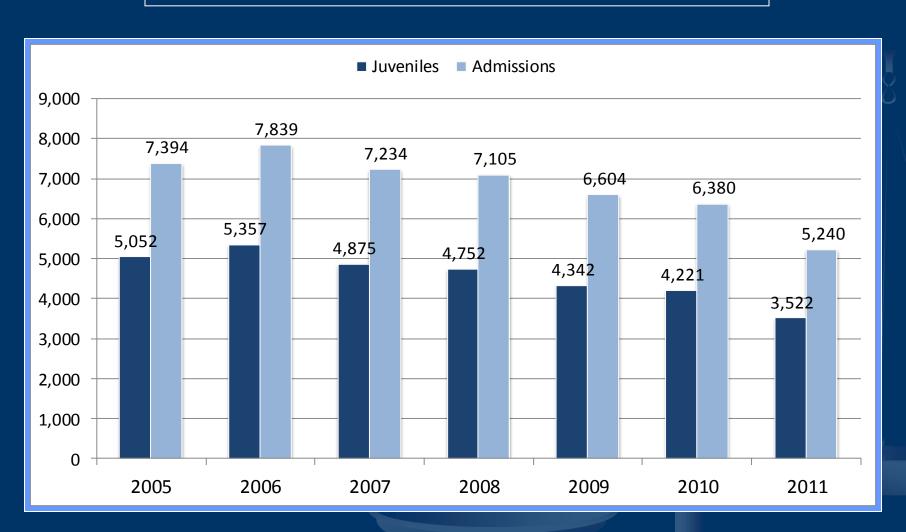

Community Programs Overview

The Community Programs Section is statutorily mandated to prevent initial or further involvement of youth in the juvenile justice system while contributing to public safety locally. These prevention, intervention, and re-entry programs are evidence-based or research-supported and have been instrumental in the steady decline of juvenile crime over the last decade.

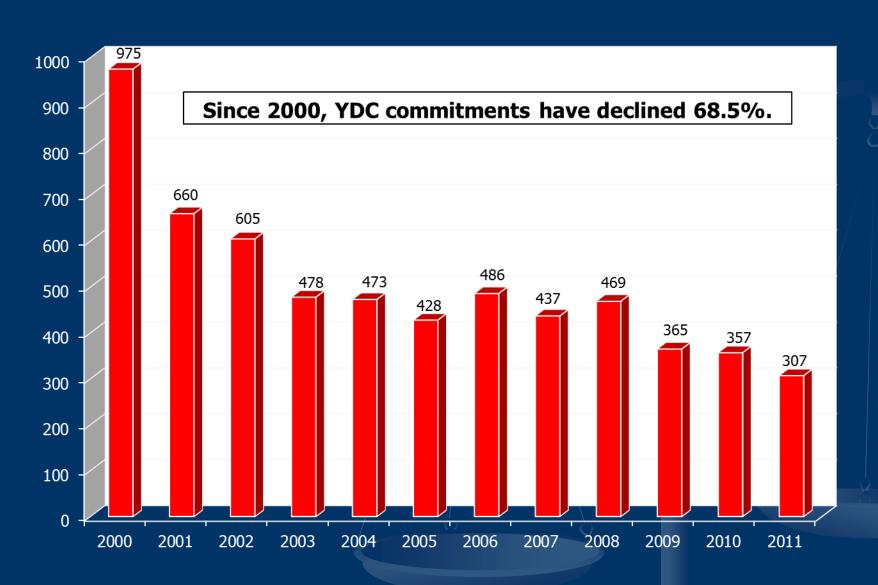

Detention Center Admissions

Since 2005, admissions to detention have declined 29%.

Overview of Comprehensive Strategy for Juvenile Justice

Juvenile Crime Prevention Councils

Part 6. Juvenile Crime Prevention Councils

§ 143B-543. Legislative intent.

It is the intent of the General Assembly to prevent juveniles who are at risk from becoming delinquent. The primary intent of this Part is to develop community-based alternatives to youth development centers and to provide community-based delinquency, substance abuse, and gang prevention strategies and programs. Additionally, it is the intent of the General Assembly to provide noninstitutional dispositional alternatives that will protect the community and the juveniles.

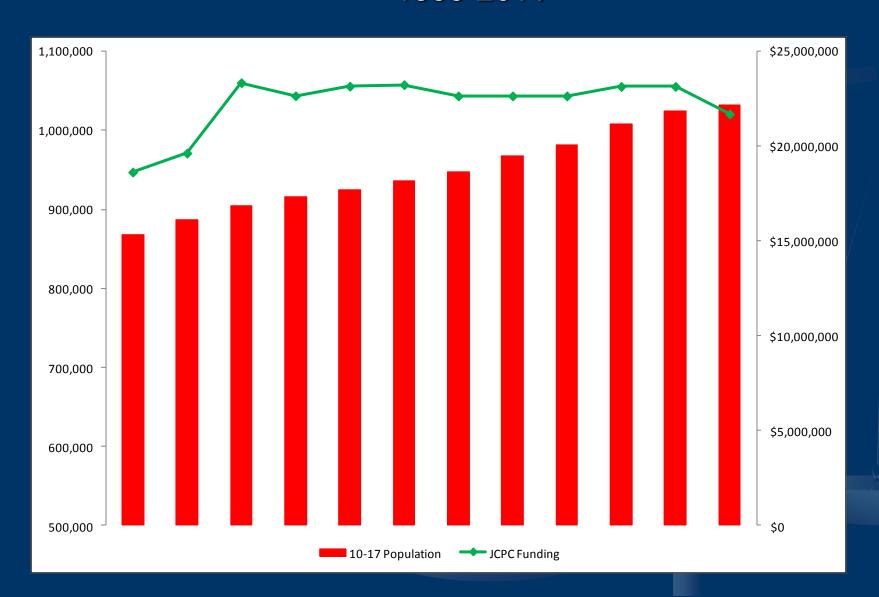

JCPC-Funded Programs

Keeping 1% of those served by JCPC-funded programs out of YDCs represents a cost savings equal to more than the total State budget for JCPCs.
